

Slime Recipe

What you'll need:

Elmer's liquid glue

Borax

Water

Food coloring (optional)

Glitter (optional)

Mixing bowl

Directions:

1. Mix together 1 oz. (2 Tbsp) Elmer's liquid glue with $\frac{1}{4}$ cup water. Add food coloring or glitter if desired.
2. Add $\frac{1}{4}$ cup borax to the water and glue solution. Stir.
3. When you can no longer stir, knead the slime with your hands until it is less sticky.
4. Have fun with it! (Do not eat it!)

This slime was made with white liquid glue and green food coloring. Try making different batches with clear liquid glue, other colors, and glitter!
